CANE BOLT WITH SEPARATE RETAINER

Our traditional style cane bolts are typically made in 5/8 inch diameter and the stems are available in 4 different lengths. They have a multi-piece design so you can easily adjust and set the amount of drop you want, and they come with a separate retainer to hold the bolt in the up position, making them easy to use.

Of course it can also be customized according to your requirements. Including the material, diameter and length of the rod. The style of the retainer
